# MINNESOTA SCHOOL DISTRICT DEMOGRAPHICS 

Hazel H. Reinhardt
March 31, 2023

## SCHOOL ENROLLMENT

- Foundation for all school planning
- Enrollment projections necessary for addressing future needs

## ENROLLMENT \& DEMOGRAPHY

- Attending school is compulsory which makes the school age population a demographic phenomenon
- School age population is a subset of the total population
- A reflection of the larger population

## COVID-19 PANDEMIC

- 2020-21
- Public school enrollment decreased
- Kindergarten classes smaller than "expected"
- Elementary enrollment decreased
- Middle school and high school enrollment less affected
- Kindergarten students "red shirted", home schooled or attended nonpublic schools
- Other grades home schooled or attended nonpublic schools

## PANDEMIC AFTER AFFECTS

-2021-22

- Public school enrollment declined a second year
- Kindergarten
- "Red shirted" students enroll; many districts saw an increased in kindergarten size as these students entered school
- Other grades
- Some districts saw a decrease in home schooling, others did not
- Nonpublic enrollment held steady or increased

## PANDEMIC AFTER AFFECTS

- 2022-23
- Public school enrollment declined for third consecutive year
- Kindergarten enrollment decreased in some districts
- Nonpublic and home schooling remain strong

## ENROLLMENT \& DEMOGRAPHY

- Key demographic trends:
- Slower population growth
- The aging of the population
- Fewer households having school age children
- Change in demand for certain types of housing units
- Increasing racial/ethnic diversity
- Increasing gap in education/income
- Declining fertility
- Fewer births
- A less mobile population

## DEMOGRAPHIC CHANGES

- Slower growth
- The aging of the population
- Minnesota population 65+ is now $15.6 \%$ of population; was $12.9 \%$ in 2010
- Moving toward a time when the elderly out number the school age population
- Increasing racial/ethnic diversity
- Enrollment in Twin Cities Metro suburban public schools at least 20\% nonWhite, some as high as $60 \%$
- Some districts have distinctive profiles

## DEMOGRAPHIC CHANGES

- Increasing gap in education/income
- Some districts have a high percentage of poor students
- Declining fertility
- Minnesota 1.73 completed fertility rate; replacement is 2.11
- Fewer births, although number of women of childbearing age has increased
- Less mobile population
- U.S. fewer than $10 \%$ ( $8.4 \%$ ) moved last year
- Was $20 \%$ per year since WWII

## DEMOGRAPHIC CHANGES

- Immigration from abroad slowed
- Minnesota very dependent on immigration from abroad for population growth

## RESIDENT LIVE BIRTHS

- 7-County Metro Area
- $56.8 \%$ of Minnesota resident live births in 2005
- $56.9 \%$ of Minnesota resident live births in 2020

## RESIDENT LIVE BIRTHS

| CHANGE <br> 2005-2020 |  |  |
| :--- | :---: | :---: |
|  | Number | Percent |
| Minnesota | $-7,499$ | $-10.6 \%$ |
| 7 -County Metro Area | $-4,181$ | $-10.3 \%$ |
| Greater Minnesota | $-3,318$ | $-10.8 \%$ |

## RESIDENT LIVE BIRTHS

| Year | MN | Anoka <br> County | Carver <br> County | Dakota <br> County | Hennepin <br> County | Ramsey <br> County | Scott <br> County | Washington <br> County |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2005 | 70,950 | 4,363 | 1,237 | 5,991 | 16,835 | 7,309 | 2,169 | 2,870 |
| 2020 | 63,451 | 3,995 | 1,073 | 4,952 | 14,835 | 6,941 | 1,641 | 2,668 |

## RESIDENT LIVE BIRTHS

| CHANGE <br> 2005-2020 |  |
| :--- | :--- |
| Metro Counties | Percent |
| Scott | $-24.3 \%$ |
| Chisago | $-19.5 \%$ |
| Dakota | $-17.3 \%$ |
| Wright | $-14.3 \%$ |
| Carver | $-13.3 \%$ |
| Sherburne | $-12.0 \%$ |
| Hennepin | $-9.3 \%$ |
| Anoka | $-8.4 \%$ |
| Washington | $-7.0 \%$ |
| Ramsey | $-5.0 \%$ |
| Isanti | $-4.0 \%$ |

## RESIDENT LIVE BIRTHS

| CHANGE <br> 2005-2020 |  |
| :--- | :--- |
| Selected Counties | Percent |
| Steele | $-27.9 \%$ |
| Winona | $-19.2 \%$ |
| Rice | $-19.0 \%$ |
| St. Louis | $-16.3 \%$ |
| Freeborn | $-15.6 \%$ |
| Goodhue | $-12.3 \%$ |
| Olmsted | $-12.0 \%$ |
| Mower | $-11.0 \%$ |
| Beltrami | $-9.3 \%$ |
| Blue Earth | $-5.9 \%$ |
| Kandiyohi | $-0.7 \%$ |
| Stearns | $5.4 \%$ |
| Clay | $17.3 \%$ |

## ENROLLMENT \& CHOICE

- Public school enrollment also affected by the education choices available to district residents

## MN EDUCATION CHOICES

|  | 2014-15 |  | 2021-22 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Number | Percent | Number | Percent |
| Nonpublic Settings | 86,298 | $9.3 \%$ | 97,913 | $10.0 \%$ |
| Traditional schools | 68,213 | $7.3 \%$ | 70,112 | $7.2 \%$ |
| Home schools | 18,085 | $1.9 \%$ | 27,801 | $2.9 \%$ |
|  |  |  |  |  |
| Public Options |  |  |  |  |
| Open Enrollment | 71,636 | $7.7 \%$ | 87,595 | $9.0 \%$ |
| Charter Schools | 47,747 | $5.1 \%$ | 66,595 | $6.9 \%$ |
|  |  |  |  |  |
| Total Enrolled | 929,230 | $100.0 \%$ | 969,102 | $100.0 \%$ |
| Capture District Res. | 723,549 | $77.9 \%$ | 716,958 | $74.0 \%$ |

## WHAT TO LOOK AT...

Data

## DATA

- Enrollment - \% nonresident
- Number of residents leaving the district, especially open enrollment \& charter schools
- Components of Enrollment Change
- Natural Increase/Decrease
- Net Migration
- Average Grade Size

## ENROLLMENT

| Year | Total | Resident | Nonresident |
| :---: | :---: | :---: | :---: |
| $2012-13$ | 17,290 | 16,826 | $464(2.7 \%)$ |
| $2013-14$ | 17,371 | 16,901 | 460 |
| $2014-15$ | 17,385 | 16,901 | 484 |
| $2015-16$ | 17,459 | 16,982 | 477 |
| $2016-17$ | 18,225 | 17,538 | 687 |
| $2017-18$ | 18,370 | 17,867 | 503 |
| $2018-19$ | 18,362 | 17,910 | 452 |
| $2019-20$ | 18,598 | 18,198 | 400 |
| $2020-21$ | 18,380 | 18,004 | 376 |
| $2021-22$ | 18,411 | 18,061 | 350 |
| $2022-23$ | 18,606 | 18,148 | $458(2.5 \%)$ |

Excludes Early Childhood. Includes ALC and Next

## ENROLLMENT

| Year | Total | Resident | Nonresident |

| Total | -69 | --- | 79 | -148 |
| Excludes Early Childhood |  |  |  |  |

## AVERAGE GRADE SIZE

|  | K-5 | $\mathbf{6 - 8}$ | 9-12 |
| :--- | :---: | :---: | :---: |
| Example 1 | 77 | 85 | 87 |
| Example 2 | 498 | 502 | 513 |
| Example 3 | 237 | $258^{*}$ | 271 |
|  |  |  |  |
|  | $\mathrm{~K}-6$ | $7-12$ |  |
| Example 4 | 82 | 73 |  |

## KINDERGARTEN (K) AS A \% OF COUNTY K POOL

| Birth Years | Pool | Percentage | Kindergarten Year |
| :---: | :---: | :---: | :---: |
| $2006 ; 2007$ | 2,949 | $39.10 \%$ | $2012-13$ |
| $2007 ; 2008$ | 2,908 | $39.92 \%$ | $2013-14$ |
| $2008 ; 2009$ | 2,817 | $42.60 \%$ | $2014-15$ |
| $2009 ; 2010$ | 2,840 | $42.15 \%$ | $2015-16$ |
| $2010 ; 2011$ | 2,834 | $46.37 \%$ | $2016-17$ |
| $2011 ; 2012$ | 2,801 | $48.02 \%$ | $2017-18$ |
| $2012 ; 2013$ | 2,836 | $46.16 \%$ | $2018-19$ |
| $2013 ; 2014$ | 2,878 | $47.85 \%$ | $2019-20$ |
| $2014 ; 2015$ | 2,829 | $43.23 \%$ | $2020-21$ |
| $2015 ; 2016$ | 2,845 | $45.80 \%$ | $2021-22$ |
| $2016 ; 2017$ | 2,772 | $47.98 \%$ | $2022-23$ |
| $2017 ; 2018$ | 2,729 |  |  |
| $2018 ; 2019$ | 2,712 |  |  |
| $2019 ; 2020$ |  |  |  |

## KINDERGARTEN (K) AS A \% OF COUNTY K POOL

| Birth Years | Pool | Percentage | Kindergarten Year |
| :---: | :---: | :---: | :---: |
| $2005 ; 2006$ | 2,135 | $28.29 \%$ | $2011-12$ |
| $2006 ; 2007$ | 2,159 | $29.90 \%$ | $2012-13$ |
| $2007 ; 2008$ | 2,101 | $27.65 \%$ | $2013-14$ |
| $2008 ; 2009$ | 1,999 | $28.41 \%$ | $2014-15$ |
| $2009 ; 2010$ | 1,937 | $31.08 \%$ | $2015-16$ |
| $2010 ; 2011$ | 1,907 | $29.52 \%$ | $2016-17$ |
| $2011 ; 2012$ | 1,970 | $30.76 \%$ | $2017-18$ |
| $2012 ; 2013$ | 1,922 | $29.19 \%$ | $2018-19$ |
| $2013 ; 2014$ | 1,866 | $28.03 \%$ | $2019-20$ |
| $2014 ; 2015$ | 1,837 | $25.37 \%$ | $2020-21$ |
| $2015 ; 2016$ | 1,870 | $26.63 \%$ | $2021-22$ |
| $2016 ; 2017$ | 1,853 |  | $25.26 \%$ |
| $2017 ; 2018$ | 1,756 |  | $2022-23$ |
| $2018 ; 2019$ | 1,700 |  |  |

## PROJECTED MN 0-YEAR OLDS

| Year | Projected Number | Adjusted Number |
| :---: | :---: | :---: |
| $\mathbf{2 0 1 7}$ Actual | $\mathbf{6 8 , 6 0 3}$ |  |
| 2017 | 70,312 |  |
| $\mathbf{2 0 1 8}$ Actual | $\mathbf{6 7 , 3 4 8}$ |  |
| 2018 | 70,395 |  |
| $\mathbf{2 0 1 9}$ Actual | $\mathbf{6 6 , 0 3 3}$ |  |
| 2019 | 70,373 |  |
| $\mathbf{2 0 2 0}$ Actual | $\mathbf{6 3 , 4 5 1}$ |  |
| 2020 | 70,325 | 65,965 |
| 2021 | 70,274 | 65,917 |
| 2022 | 70,227 | 65,873 |
| 2023 | 70,191 | 65,814 |
| 2024 | 70,164 | 65,811 |
| 2025 | 70,161 | 65,811 |

Adjusted number is 93.8 percent of projected number

## NEW HOUSING UNITS

What do they really mean?

## NEW HOUSING

- Relationship between housing and K-12 enrollment is complex
- Unit type affects school age child per unit yield
- Newer single-family detached units yield more students per unit than older single-family detached units
- As single-family detached units sell, student yield usually increases in the new units. In older units, yield is likely to decrease
- Market value of single-family detached units affect yield. Moderately to higher priced units have higher per unit yield
- Senior units - no students

## YIELD PER UNIT TYPE

- Results of studies in four states - Minnesota, Wisconsin, Illinois \& Colorado
- Single family detached K-12 yield varies by school district and by attendance area within school districts
- Townhome yield is very consistent across all school districts across states 0.22
- Apartments yield is very consistent across all school districts across states 0.11 to 0.15
- Condominiums yield almost no school age children - 0.02 to 0.05

## HOUSING UNIT CHANGE \& ENROLLMENT

|  | Students |
| :---: | :---: |
| 5,758 additional housing units 2017-2021; 3,090 S-F |  |
| Estimated students from these units | 1,931-2,086** |
| Change in resident enrollment, 2018-19 to 2022-23 | 238 |
| Natural decrease same years | -1,050 |
| Net in migration same years | 1,288 |
| Residents attending elsewhere in 2022-23* | -1,746 |
| *The comparable number was 1,269 in 2018-19 <br> **Based on 0.50 to 0.55 yield for single-family detached units; 0.22 multi-family units and 0.11 for apartment units |  |

## CHALLENGES PROJECTING ENROLLMENT FROM HOUSING UNITS

- Additional housing units, even those with school age children, do not automatically translate into additional enrollment
- Housing Unit Method
- Methodology
- Assumptions

## CONCLUSIONS

- Demographic changes are making enrollment projections more difficult
- As births decrease
- As new housing unit yields have less affect on enrollment
- Choice - more students are opting for choice, which adds to the complexity
